# YOUR TRUSTED CNC PARTS PARTNER

## ABOUT US

We specialize in sourcing CNC machine parts and industrial automation systems, providing maintenance spare parts for factories that cover leading brands such as FANUC, Mitsubishi, and Siemens. We are committed to acting as a 'trusted partner' for factories, helping to locate specialized, hard-to-find, and complex components. We offer a comprehensive one-stop service ranging from product selection, procurement, and importation to machine maintenance and efficient domestic and international shipping.

Over 15 years of experience and a deep understanding of customer needs, we are committed to providing fast, reliable, safe, and industry-standard services. Our team stands ready to offer precise, targeted advice that meets practical requirements, helping to minimize downtime and truly enhance the continuity of your business operations.

# Mission

01

## High-Quality Spare Parts Procurement

We carefully select high-standard machinery spare parts from trusted manufacturers to ensure our customers confidence in the durability and performance of every component we deliver.

02

## Professional Machinery Repair Services

Provided by a team of specialized expert technicians, supported by a thorough inspection process to ensure your machinery is restored to optimal performance.

03

## Reduced Delivery Lead Time

We optimize management and coordination processes to deliver products and services more efficiently, ensuring faster turnaround times and meeting our customers' urgent requirements.

04

## Warehouse Efficiency Enhancement

We develop accurate and modern inventory management systems tailored to customer needs, helping to reduce stock shortages, lower operational costs, and enhance readiness for continuous service delivery.

# OUR SERVICES

## AUTOMATION PARTS SOURCING

**We provide sourcing services for automation machinery spare parts from leading and trusted brands**, carefully selecting high-quality components across all categories, with fast and accurate delivery tailored to the needs of industrial factories.

## PROFESSIONAL REPAIRING

**CNC machinery maintenance Service**, provided by a team of specialized expert technicians, delivering professional maintenance and repair services with reliable, industry-standard workmanship you can trust.

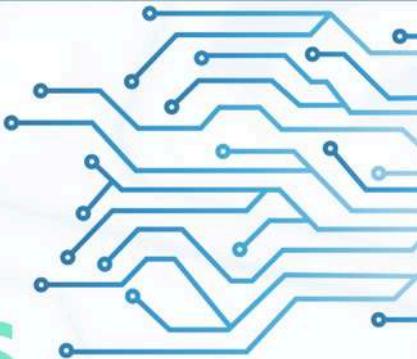

## PARTS STORAGE & INVENTORY

**Organized spare parts storage and warehousing services**, we provide systematic spare parts storage and warehousing solutions that preserve part quality, minimize the risk of loss, and ensure immediate availability to meet operational needs.

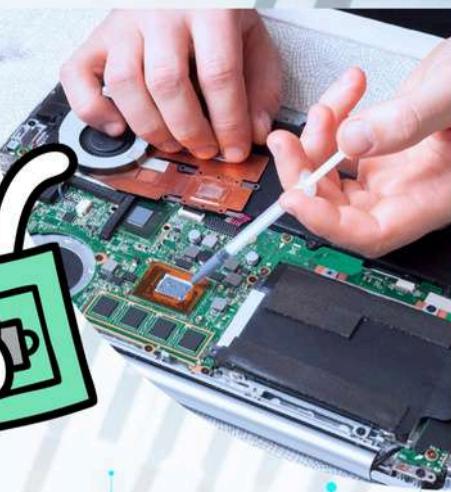

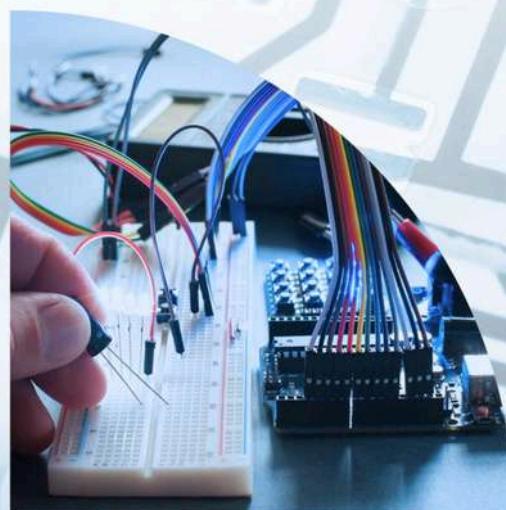

## MANAGEMENT

**We provide comprehensive management solutions** covering procurement, inventory control, and maintenance systems to enhance efficiency, reduce costs, increase operational agility, and strengthen confidence across all production processes.

## OUR REPAIR SERVICES

We have a team of specialized experts dedicated to providing precise and meticulous maintenance and repair services for our customers CNC machines and spare parts. Our goal is to restore each machine to its highest operational performance through reliable, high-quality repair standards, helping to minimize downtime and enhance continuity across our customers' production processes.

## OUR WAREHOUSE

Our warehouse is systematically managed to support the storage of CNC spare parts, maintenance components, specialized parts, and a wide range of industrial components. With strict quality control standards and an accurate real-time inventory monitoring system, we are able to deliver products quickly while continuously supporting your maintenance and production operations. As a central hub of our services, our warehouse helps ensure smooth business operations, reduces lead times, and delivers the highest level of reliability and production continuity for our customers.
